Nomenclatural Clarification Concerning *Aspergillus salvadorensis* in a Previously Published Article

Antonio Vásquez Hidalgo, PhD*
Professor Microbiology, School of Medicine, University of El Salvador, San Salvador, El Salvador

Publication date: *10-11-2026*

DOI: *10.5281/zenodo.24110099*

LETTER TO THE EDITOR

To the Editor,

We write in connection with the article by Vásquez Hidalgo (2025), "Characterization of *Aspergillus salvadorensis* Isolated from *Caeselpinia coriaria* Seed, El Salvador," published in the *IKR Journal of Agriculture and Biosciences*, 1(4), 189–205 (https://doi.org/10.5281/zenodo.17565141).

Following publication, nomenclatural concerns were raised regarding the treatment of the name *Aspergillus salvadorensis* in the original article. In particular, the name was indicated as provisional in parts of the text; the statement concerning preservation of the holotype in a metabolically inactive state was reported as absent; and more than one MycoBank identifier was cited. The original electronic publication is not to be retrospectively altered. This separate communication is therefore submitted to provide the nomenclatural information associated with the proposed validation of the name.

The nomenclatural information proposed for this separate publication is set out below.

Item	Details supplied for editorial verification
Proposed name	*Aspergillus salvadorensis* A.V. Hidalgo, sp. nov
MycoBank identifier	MB 860456.
Reference to description	For a detailed description, see Vásquez Hidalgo, A. (2025), *IKR Journal of Agriculture and Biosciences*, 1(4), 189–205.
Holotype	UES-MIC-2025-01 or UES-DPV-2025-01. the holotype is preserved in a metabolically inactive state
Culture collection	Mycology Section, Department of Microbiology, University of El Salvador and Plant Protection Deparment Agricultural Science University of El Salvador.
Ex-type culture	UES 001

This Letter is intended to accompany, and not replace or amend, the originally published article. The original article remains available as published, with its original bibliographic record.
